Summary

Software Engineer & Full Stack Developer with hands-on experience in designing, developing, and deploying scalable web applications using React.js, PHP, Node.js, Express.js, MySQL, JavaScript, HTML5, CSS3, and Tailwind CSS. Experienced in building complete client-based solutions with responsive frontend development, secure backend architecture, RESTful API integration, authentication, and database management. Strong foundation in Data Structures, Algorithms, DBMS, Operating Systems, and Object-Oriented Programming. Passionate about developing high-performance, scalable, and user-centric software solutions while continuously learning modern technologies and software engineering best practices.

Education

B.Tech in Computer Science Engineering

Sushila Devi Bansal College, Indore

2021 – 2025

CGPA: 7.32

Higher Secondary

Christina Convent Higher Secondary School

12th: 67.2% — 10th: 69.6%

Experience

Software - Developer Intern

May 2026 – Present

Alaukik ITech Solution

- Built and deployed 4+ client web applications using React.js, PHP, Node.js, and MySQL.
- Integrated and optimized REST APIs to improve backend efficiency and response time.
- Debugged and resolved application issues, enhancing system performance and stability.
- Collaborated with frontend and backend teams for seamless application integration.
- Built responsive and user-friendly interfaces following modern UI/UX practices.
- Worked on real client projects including admin dashboards, authentication modules, and booking systems.

Projects

Tours & Travels

Live

Tech Stack: React.js • PHP • MySQL • Bootstrap

- Developed a full-stack Tours & Travels Booking Management System with a responsive user interface.
- Built an Admin Dashboard to manage vehicles, bookings, users, and customer inquiries.
- Implemented secure authentication, booking management, and REST API integration.
- Optimized application performance and ensured seamless user experience across all devices.

DailyMatch.in

Live

Tech Stack: HTML5 • CSS3 • JavaScript • React.js

- Developed a responsive web application for DailyMatch.in as a freelance project for a client.
- Built modern and interactive user interfaces using React.js, HTML5, CSS3, and JavaScript.
- Designed reusable components and implemented responsive layouts with a strong focus on UI/UX.
- Optimized website performance and ensured cross-browser compatibility for a seamless user experience.

Skills

Languages: HTML5, CSS, JavaScript, SQL

Frameworks: React.js, Node.js, Express.js, Tailwind CSS

Database: MySQL, MongoDB

Tools: Git, GitHub, VS Code, Postman

Core Concepts: Data Structures, Algorithms, OOP, DBMS, OS, Computer Networks

Web Development: REST APIs, API Integration, Authentication & Authorization, CRUD Operations, MVC Architecture

Achievements

- Successfully developed and delivered a freelance website project for a client.
- Active GitHub contributor with multiple frontend and full-stack development projects.
- Built multiple responsive portfolio websites, UI clone projects, and client-based web applications.
- Strong interest in Web Development, UI/UX Design, and modern frontend technologies.

Soft Skills

Communication, Teamwork, Leadership, Problem Solving, Time Management, Quick Learner
